PROFESSIONAL EXPERIENCE

Full Stack Developer | Automize Plus | Jaipur, Rajasthan
January 2025 – Present

- Developed the Transportation Management web application, building React-based interfaces and working on Express REST APIs, MySQL operations, and application business logic.
- Contributed to Wapflux, a multi-tenant WhatsApp messaging platform, working on dashboard functionality, database-backed services, and Meta WhatsApp Cloud API integration with AI-assisted development tools.
- Built a transportation and accounting ERP mobile app with AI-assisted development, covering Lorry Receipt (LR) management, billing, vouchers, multi-company operations, and fiscal-year switching. Mobile app implementation was AI-assisted.
- Delivered feature updates and UI improvements for FitPlus CRM, a production gym management platform, integrating frontend components with existing APIs.
- Used AI-assisted development tools to support implementation and debugging across projects.

PROJECTS

Transportation Management Website | React.js, Tailwind CSS, TanStack Query, Node.js, Express.js, MySQL
Built web application features for transportation operations, connecting React interfaces with REST APIs and MySQL-backed workflows.

Transportation ERP Mobile App (AI-Assisted) | React Native, Expo, TypeScript — implemented with AI coding assistance
Built a mobile ERP app with AI-assisted development for logistics and accounting workflows, including Lorry Receipts, trip billing, driver/vehicle records, vouchers, and PDF/Excel export. The mobile implementation relied heavily on AI-generated code; independent React Native expertise is not claimed.

Wapflux – WhatsApp Business Messaging Platform | React, PostgreSQL, Redis, Prisma ORM, Meta WhatsApp Cloud API
Contributed to a multi-tenant messaging platform for sending and tracking WhatsApp messages, including dashboard functionality and API integration.

FitPlus – Gym & Studio CRM | React.js, Bootstrap, Axios, MySQL
Contributed features and UI improvements to a live CRM, integrating frontend components with REST APIs.
